CALL FOR PAPERS

Frontiers of Mathematical Finance invites submissions of developments in the Mathematical Sciences of relevance to the field of Mathematical Finance, especially those that move the frontier forward. The developments can come from Mathematics, Stochastics, Engineering, Physics, Computer Science, Statistics, Economics, Actuarial Science, or other quantitative disciplines. The financial applications can include Valuation, Risk Allocation, Hedging, Risk Management, Trading, Regulation, Global Macro Financial Policy, and others. Papers that contribute to a better theoretical understanding of the discipline are especially welcome. The research investigations should be supported by rigorous argumentation and grounded in theoretical, empirical, or experimental foundations.

Advisory Board	Senior Editorial Board
Freddy Delbaen, ETH, Zurich Robert Jarrow, Cornell University Dilip Madan, University of Maryland, <i>Chairman</i> Eckhard Platen, University of Technology, Sydney Stanley Pliska, University of Illinois at Chicago Philip Protter, Columbia University Nizar Touzi, Ecole Polytechnique	Wim Schoutens, K.U. Leuven, <i>Managing Editor</i> Jaska Cvitanic, Caltech, <i>Co-Editor</i> Xin Guo, University of California, <i>Co-Editor</i>
Associate Editors	
Anna Aksamit, University of Sydney Hansjoerg Albrecher, University of Lausanne Pauline Barrieu, LSE, London Erhan Bayraktar, University of Michigan Agostino Capponi, Columbia University Peter Carr, New York University Delia Coculescu, University of Zurich Christa Cuchiero, University of Vienna Min Dai, National University of Singapore Giulia DiNunno, University of Oslo Matheus Grasselli, McMaster University Martino Grasselli, University of Padova Julien Hugonnier, Ecole Polytechnique Federale Lausanne Sebastian Jaimungal, University of Toronto	Ying Jiao, University Claude Bernard Lyon1 Steven Kou, Boston University Martin Larrson, Carnegie Mellon University Alexander Lipton, MIT Johannes Muhle-Karbe, Imperial College Marcel Nutz, Columbia University Gilles Pagès, Sorbonne University Mathieu Rosenbaum, École Polytechnique Mathias Scherer, Technical University of Munich Josef Teichmann, ETH Zurich Hao Xing, Boston University Dacheng Xiu, University of Chicago Jianfeng Zhang, University of Southern California

Submission of papers are now open. Submit by email to samfinance@umd.edu
